PROFESSIONAL SUMMARY

Fullstack Junior Developer with extensive experience in coding and problem-solving, leveraging skills in React.js and proficiency in CSS, HTML, and JavaScript/Typescript to deliver high-quality web applications. Proven track record in enhancing team performance through effective communication and leadership. Committed to continuous learning and driving innovation in technology solutions

PROFESSIONAL EXPERIENCE

Napa. Sales Associate

11/2022 -

11/2024

- Assisted 30+ customers/day with accurately finding the correct car parts to repair their vehicles
- Accurately asserted paint colors by utilizing paint gun technology
- Applied problem-solving techniques to resolve diverse customer issues, demonstrating adaptability and critical thinking in a fast-paced retail environment
- Drove sales growth by identifying customer needs, recommending suitable products, and consistently meeting or exceeding performance targets given by management

JPMorgan Chase & Co., QA Intern

06/2023 -

08/2023

- Conducted extensive research to evaluate new end-to-end automated testing software (Cypress) and provide usage recommendations for the team
- I documented and presented my findings to peers and senior leaders, showcasing scenarios that demonstrated how the testing tool could be applied effectively in both small-scale applications and large-scale enterprise solutions.
- Leveraged jQuery selectors to analyze file configurations and conduct efficient testing with Cypress.

EDUCATION

Code Differently, Software Engineering Bootcamp

09/2024 -

12/2024

- Learning multiple coding languages to build software solutions in a rigorous bootcamp training format (50+ hours/week)
- Delivering high-quality code within tight deadlines, contributing to successful project completions and maintaining a culture of continuous improvement for me and others.

Delaware Technical Community College, Workforce Development Program

09/2023 -

12/2023

- Completed Comp Tia A+ 1101 & Comp Tia A+1102 course material in a class environment.
- Built my own computer with moderate guidance and gained an understanding of each component's functionality

Middletown High School, Diploma

08/2019 -

06/2023

- Relevant courses: Computer Science 1 and 2 (Python and Java programming).

Code Differently, Youth Software Developer Programs

03/2022 -

06/2023

- Learned the basics of Java programming through rigorous instructor-led and individualized training
- Developed full-stack applications using JavaScript, HTML, CSS, and React.js
- Built a personal blog using JSX

CERTIFICATIONS

- A+ Certification (CompTIA A+ 1101 & 1102)
2024
- FreeCodeCamp - Responsive Web Development
2024

SKILLS

- **Technical Skills:** Java, JavaScript, HTML, CSS, React.js, C++, RegExp, CSV, Python, SQL, Cypress E2E Testing, jQuery, OOP concepts
- **Soft Skills:** Communication, Teamwork, Problem Solving, Adaptability, Leadership, Customer Service, Analytical Thinking
